#Including sublimit of up to ₹500.00 crore for perpetual debt  
 ##Including sublimit of up to ₹5,000.00 crore for commercial paper

### Rationale and key rating drivers

CARE Ratings Limited (CARE Ratings) has assigned a rating of "CARE AAA; Stable/CARE A1+" to the market borrowing programme for FY26 aggregating to ₹1,40,000 crore.

Reaffirmation of the ratings for instruments and bank facilities of PFC continues to draw comfort from PFC's status as a strategically important entity to the Government of India (GoI) for the development of power infrastructure in India, and its quasi-sovereign status that allows PFC to have a diversified resource profile at competitive rates of interest. Ratings also favourably factor in improving profitability, asset quality, and capitalisation profile. The rating for the perpetual debt factors in PFC's healthy capital adequacy ratio (CAR) of 24.15% as on December 31, 2024 (24.37% as on March 31, 2024), which is comfortably above the regulatory requirement of 15%. PFC has also witnessed an improvement in its profitability profile, with return on average total assets (RoTA) increasing to 3.16% (annualised) in 9MFY25 against 3.05% in FY24 (2.79% in FY23 and 2.58% in FY22).

Ratings, however, take into account the exposure to state power utilities having weak financial profile and to high sectoral concentration risks. The company also faces earnings volatility associated with its exposure to private sector.

### Rating sensitivities: Factors likely to lead to rating actions

#### Positive factors - Factors that could, individually or collectively, lead to positive rating action/upgrade:

Not applicable.

#### Negative factors - Factors that could, individually or collectively, lead to negative rating action/downgrade:

- Material change in shareholding pattern and/or reduction in support from the GoI.
- Significant deterioration in asset quality profile.
- Material weakening in capitalisation profile.

#### Negative factors (additional) for the perpetual debt - Factors that could, individually or collectively, lead to negative rating action/downgrade:

- Deteriorating capitalisation levels with cushion over the regulatory requirement falling below 5%.
- RoTA remaining below 1% on a sustained basis.

### Analytical approach:

Standalone; factoring in timely support from the GoI, given PFC is majority owned by the GoI and plays a strategic role in the power sector financing and development of India.

### Outlook: Stable

CARE Ratings expects PFC will continue to be strategically important to the GoI and will continue to play an important role in development of the power sector.

### Detailed description of key rating drivers:

#### Key strengths

##### Strategic importance to and strong support from GoI

PFC was wholly owned by the GoI till 2007. In 2007, the company launched its initial public offer (IPO) and hence, the GoI's stake in the company reduced to 90% as on March 31, 2007. As on December 31, 2024, the GoI's stake stood at 55.99%. PFC enjoys patronage from and support of the GoI because of the pivotal role that PFC plays in financing power projects for the state and private sectors, being instrumental in strengthening the power infrastructure of the country. PFC and REC continue to be a strategically important entities for GoI, as they are the nodal agencies for GoI schemes, such as the Revamped Distribution Sector Scheme and Ultra Mega Power Projects. The scheme's implementation period is five years (FY22 to FY26) with outlay of ₹3,03,758 crore with an estimated Gross Budgetary Support of ₹97,631 crore from the GoI.

PFC and REC are advised by the Ministry of Power (MoP) to extend their support to distribution companies (discoms) for timely payments of their dues under the Late Payment Surcharge and Related Matters Rules, 2022 (LPS Rules 2022). Loans under LPS are entirely guaranteed by the state government and are to be repaid by discoms to suppliers in 1-4 years, depending on the quantum of loans. MoP initiated a tariff-based competitive bidding process for developing and strengthening transmission system through private sector participation. PFC Consulting Limited, a wholly owned subsidiary of PFC, has been nominated as a bid process coordinator by MoP, GoI, for development of independent transmission projects. CARE Ratings notes the company's strategic importance to GoI for developing power infrastructure in India and expects it to continue in future.

### **Significant market player in the power financing sector with diversification initiated**

PFC's loan book has been consistently growing. With inception of LPS and Revolving Bill Payment Facility in FY22, picking up the momentum in FY23 and FY24, the company's loan book grew by 14% year-over-year (y-o-y) in FY24 reaching a loan book of ₹4,81,462 crore. The loan book as on December 31, 2024, grew by ~11% y-o-y and stands at ₹5,03,824 crore.

As on December 31, 2024, the share of loans to discoms continue to make majority share in the overall loan book with 41%, followed by loans to generation companies (gencos) with 34%, loans to renewable energy (RE) companies with 14%, loans to transmission companies (transcos) with 7% and loans to infrastructure companies and others makes 4% of the book.

PFC forayed in lending to the infrastructure sector. The maximum exposure toward the sector will be 30% of the outstanding loan book subject to two-thirds new sanctions in a financial year towards the power sector. The company's infrastructure loan book is at nascent stage, making 2% loan as on December 31, 2024, up from 1% loan as on December 31, 2023. It's ability to diversify sectors, while keeping its asset quality strong is a key monitorable aspect, as infrastructure lending is a new venture for the company.

With rising share of loans towards RE sector, which are predominantly in private sector, the share of overall loan towards private sector is rising with 19% as on March 31, 2024, from 17% as on March 31, 2023. Consequently, share of overall loan towards government sector is reducing to 81% as on March 31, 2024, from 83% as on March 31, 2023. Going forward, CARE Ratings expects the growth momentum to continue the same trajectory.

### **Diversified resource base**

As a quasi-sovereign financial institution (FI), PFC is able to manage a well-diversified resource profile and can mobilise funds at cost effective rates from sources such as external commercial borrowings, international agencies, domestic FIs, long-term bonds, bank loans, commercial paper, capital gains tax exemption bonds, infrastructure bonds, and tax-free bonds.

PFC's borrowings increased by 12% y-o-y to ₹4,07,383 crore as on March 31, 2024, and increased by ~4% to ₹4,22,863 crore as on December 31, 2024. As on December 31, 2024, majority borrowings come from domestic bonds with 60% (58% as on 31.12.2023), followed by rupee term loan from banks with 18% (19%), foreign currency borrowings with 19% (18%), 54EC bonds with 2% (2%), subordinate liabilities with 1% (2%) and balance by CC/OD/line of credit. As on December 31, 2024, PFC's 95% of foreign currency portfolio is hedged.

### **Improving profitability metrics**

In FY24, PFC reported profit after tax (PAT) of ₹14,367 crore, up by 24% y-o-y. In 9MFY25, the company's PAT increased to ₹12,243 crore. PFC's cost of funds had increased in FY24, leading to slight moderation in net interest margin to 3.32% from 3.46% in FY23. With PFC having funds availed in foreign currency, fluctuations in its value cause fluctuations in the other income over total assets ratio. This, and fluctuations in the fee income due to prepayments and implementation of government scheme led to increase in other operating and other income ratio to 0.04% in FY24 from negative return of 0.39% in FY23.

With recoveries received from the non-performing assets (NPA) and no further slippages in FY24, credit cost ratio continued to be negative with 0.04% in FY24 against negative 0.07% in FY23. Owing to the wholesale lending model, operating expenses ratio is small and at same rate as previous two years with 0.14% in FY24. Thus, RoTA in FY24 improved to 3.05% in FY24 from 2.79% in FY23.

Going forward, CARE Ratings expects profitability to remain healthy with company expecting the recoveries against NPAs.

**Improving asset quality metrics**

PFC's asset quality has been improving trend over the years. Owing to resolution through National Company Law Tribunal and write offs, the company reported reduction in gross NPA (GNPA) ratio to 3.34% as on March 31, 2024, from 3.91% as on March 31, 2023. As on December 31, 2024, slippages were limited to ₹130 crore for 9MFY25 and GNPA ratio stood at 2.63%.

**Comfortable capital position**

PFC's gearing level has been improving owing to rise in internal accruals. Gearing improved to 6.7x as on March 31, 2024, from 7.3x as on March 31, 2023. PFC has always been maintaining capitalisation above regulatory benchmark for CAR and Tier I capital. CAR increased to 25.4% as on March 31, 2024, from 24.4% as on March 31, 2023, and, as on December 31, 2024, owing to growing loan book, CAR reduced to 24.2%.

**Key weaknesses****Sectoral concentration of operations, although diversification initiated, and borrower-wise concentration remains high**

Owing to its mandate, PFC's operation was concentrated towards power sector. With the company foraying in infrastructure sector with ₹7,007 crore making 1.5% gross loan as on March 31, 2024, the diversification of the sector was initiated by PFC. As demand peaks in the sector, the share of loan in non-power sector, that is in infrastructure sector has increased to 2% as on December 31, 2024. Although, the maximum exposure limit is always restricted to 30% of outstanding loan, subject to 2/3<sup>rd</sup> new sanctions in a FY towards power sector. It's ability to diversify sectors, while keeping its asset quality strong is a key monitorable aspect, as infrastructure lending is a new venture for the company.

PFC was exempted from following single entity/group exposure norms and concentration limits that are applicable to NBFCs till March 31, 2022. Owing to its business model and strategic importance to GoI, the RBI vide its letter dated August 24, 2022, allowed the existing exposure as on August 24, 2022, to run off till maturity without invoking regulatory violation and conform to RBI credit concentration norms regarding new exposure. As an IFC, the total permissible exposure for lending and investing is 30% of Tier-I capital in case of a single borrower and 50% in case of a single group of borrowers, respectively. Borrower concentration continues to make the company's credit profile vulnerable with top 10 customers contributing 40% gross loan as on March 31, 2024, down from 43% of the gross loan as on March 31, 2023.

**Liquidity: Adequate**

Per the asset liability management (ALM) statement, considering interest component as on March 31, 2024, there are positive cumulative mismatches across time buckets. Although, excluding interest component, the ALM statement as on March 31, 2024, reported positive cumulative mismatches across time buckets except 1-5 years. To mitigate negative cumulative mismatches, the company has access to sanctioned unutilised bank line of ₹14,250 crore as on January 31, 2025. PFC's liquidity profile is expected to remain comfortable with strong financial flexibility, arising from sovereign ownership and diversified funding profile and undrawn sanctioned bank lines. Gaps between outflows and inflows are partially bridged through cash and investment in government securities and sizeable unutilised bank lines.

**Environment, social, and governance (ESG) risks**

Given that PFC is engaged in the lending business, it is exposed to the environmental risks indirectly through its portfolio of assets. Any environmental or regulatory risk for the borrower entities of PFC could translate into credit risks for PFC.

As part of its appraisal process for all power projects it finances, PFC identifies and assesses potential environmental risks of projects. Environmental issues are identified through due diligence, site visits and review of applicable compliances, among others. PFC has introduced policies for competitive financing of clean energy projects across the country, including solar, wind, biomass projects and e-mobility. PFC's 13% loan book as on March 31, 2024, is towards RE sector. In case of social risks, customer data security and privacy remain the key areas where any lapses could result in regulatory intervention and loss of reputation. In aspects of governance, PFC has adequate representation of independent directors (43% as on December 31, 2024).

## About the company and industry

### Industry classification

Macroeconomic indicator	Sector	Industry	Basic industry
Financial services	Financial services	Finance	Non-banking financial company (NBFC)

PFC was set up in 1986 as a financial institution dedicated to power sector financing under the Ministry of Power - check. The corporation was notified as a public financial institution in 1990 under the Companies Act, 1956. In 2010, the RBI had classified the company as an Infrastructure Finance Company (NBFC-ND-IFC).

PFC provides forex? rupee term loan, short-term loans, equipment lease financing, and transitional financing services for power projects in the generation, transmission, and distribution sectors. As the company has forayed in infrastructure and logistics sectors, here, it deals with e-vehicle fleets, charging infrastructure, roads, ports, metro rail, smart cities, and other significant infrastructure projects. Its customer base comprises of central and state power utilities, power equipment manufacturers, state government departments, and developers involved in large-scale infrastructure projects.

Up till December 2018, GoI was a majority shareholder in REC Limited (REC; rated 'CARE AAA; Stable/CARE A1+'), holding 52.85% shares as on December 31, 2018. On March 28, 2019, PFC completed the acquisition transaction, where the stake of GoI was transferred to PFC. Post this transaction, REC became a subsidiary of PFC. As on December 31, 2024, PFC held majority stakes in REC with 52.63%.

#### About us:

Established in 1993, CARE Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the RBI. With an equitable position in the Indian capital market, CARE Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CARE Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CARE Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit.

#### Disclaimer:

The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor. The agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CARE Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. In case of partnership/proprietary concerns, the rating/outlook assigned by CARE Ratings is, inter-alia, based on the capital deployed by the partners/proprietors and the current financial strength of the firm. The ratings/outlook may change in case of withdrawal of capital, or the unsecured loans brought in by the partners/proprietors in addition to the financial performance and other relevant factors. CARE Ratings is not responsible for any errors and states that it has no financial liability whatsoever to the users of the ratings of CARE Ratings. The ratings of CARE Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades.
